SUMMARY

Operations Executive with hands-on experience across office administration, resource management, and workflow automation. I build the internal tools — Google Apps Script systems, a Salesforce-integrated operations portal, PostgreSQL-backed tracking — that keep day-to-day operations running, and bring a CSE (AI & ML) background to how I approach process problems.

PROFESSIONAL EXPERIENCE

Operations Executive & Admin

Dec 2025 — Present

Upstep Education Pvt. Ltd. (Upstep Academy) — Andheri, Mumbai

- Manage day-to-day office operations, administrative activities, and resource coordination.
- Own office resources, inventory, assets, and employee-related operational data end-to-end.
- Design and maintain live resource-management systems using Google Sheets scripting (Apps Script) combined with AI-assisted automation.
- Build and maintain an internal operations web portal, integrated with Salesforce, for employee and inventory data management.
- Use PostgreSQL as the backend data store for operational reporting and tracking.
- Automate recurring workflows and reports to cut manual effort and reduce data-entry errors.
- Maintain structured operational records and stock-tracking systems; collaborate across teams to streamline digital processes.

Digital Marketing Associate

Mar 2024 — Jun 2024

Diginavigators

- Supported SEO, social media marketing, and web-services delivery for multiple client accounts.
- Coordinated projects across clients, sharpening communication, analytical, and operational-management skills.

ACADEMIC PROJECTS (B.E. COURSEWORK)

AI-Assisted Surveillance Drone

Built an autonomous drone prototype combining computer-vision object detection with real-time decision logic, exploring how aerial automation could support traffic monitoring and disaster-response scenarios.

Network Intrusion Detection System (IDS)

Implemented an IDS to monitor live network traffic, flag anomalous patterns, and alert on unauthorized access attempts.

WiFi Security Testing (Deauthentication)

Studied 802.11 deauthentication attacks in a controlled lab environment to understand wireless-network vulnerabilities, as coursework on network security.

Android Penetration Testing (Ethical)

Practiced ethical Android penetration testing using Kali Linux — identifying vulnerabilities and documenting recommended fixes as part of a security-fundamentals course.

SKILLS

Automation & Scripting: Google Apps Script, AI-assisted workflow automation, Process optimization

Operations: Inventory & asset management, Resource coordination, Data management

Analytical: Python, SQL, Research & analytics, Team coordination

Web Development: Frontend development, Web application development, PostgreSQL

Platforms: Salesforce (working knowledge)

EDUCATION

Bachelor of Engineering — CSE (AI & ML)

Jun 2021 — May 2025

SMT. Indira Gandhi College of Engineering, Navi Mumbai

77% • Deep Learning and Data Science coursework

HSC (XII) — PCM

2021

Arunodaya Public School (CBSE)

82%

CERTIFICATIONS & ACTIVITIES

Ignite Management Community
GDSC Core Team
